DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/21/06 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,5 are rejected under 35 U.S.C. 102(b) as being anticipated by Hurst et al. (U.S. Patent 3705932).

Hurst et al. disclose: Regarding Claim(s) 1, an automated manufacturing line for making a composite article from first and second thermoformed workpieces by automatically assembling the first thermoformed workpiece to the second thermoformed workpiece, comprising: a thermoforming station (300) for thermoforming the first and second thermoformed workpieces in a plastic sheet; a trim station (400) for individually trimming at least the first thermoformed workpiece from the plastic sheet; and an assembly station (500) for assembling the trimmed first thermoformed workpiece onto the second thermoformed workpiece to form the composite article (Figs. 1-9,col.2 lines 49-54; col.9, lines 27-63). Examiner sees the each half sheet with 8 hemisphere as individual workpiece.

Art Unit: 3726

Regarding Claim(s) 5, Hurst et al. teach the assembly station assembles the 1st and 2nd workpiece by an ultrasonic weld (col.9, line 66).

Allowable Subject Matter

4. Claims 25-43,,83,85,88,89 and 90-92 are allowed.
5. Claims 2-4,6-24,86 and 87 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments filed 11/21/06 have been fully considered but they are not persuasive. See the new office action.
